GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Tsunami Preparedness Week 2015

- The Governor has proclaimed March 22 – 28, 2015 Tsunami Preparedness Week. During the last full week of March the state supports activities and outreach in coastal counties and communities.

Hazardous Material Spill Report# 15-1755, Lucerne, Lake County

- CHP Ukiah advised of a milk truck that overturned due to unknown causes. Approximately 5,000 gallons of milk released into Clear Lake. Caltrans is enroute to perform clean-up. Notifications made by CSWC following SOP. There are currently no requests for State Assistance.

Governor Brown Signs \$1 Billion Emergency Drought Package

- Moving swiftly to help communities cope with California's devastating drought and the ongoing effects of climate change, Governor Edmund G. Brown Jr. today signed emergency legislation – AB 91 and AB 92 – that fast-tracks more than \$1 billion in funding for drought relief and critical water infrastructure projects.
- Governor Brown joined Assembly Speaker Toni Atkins, Senate President pro Tempore Kevin de León and Republican Leaders Assembly member Kristin Olsen and Senator Bob Huff last week to announce agreement on the \$1 billion legislation, which accelerates emergency food aid, drinking water, water recycling, conservation awareness, water system modeling, species tracking, infrastructure and flood protection funding. For full text of the bills, visit: <http://leginfo.legislature.ca.gov/>

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Mostly clear skies and dry weather conditions are expected this weekend. Another weak front will bring another chance for rain to areas primarily north of Mendocino County Monday night into Tuesday.

Medford Weather:

Surface high pressure will strengthen over the area from the southwest today resulting in mostly sunny to partly cloudy skies this afternoon. Afternoon temperatures will be 5 to 15f degrees cooler today than was observed on Friday, but will still be 5 to 10 degrees above normal. Temperatures will warm to another 5 degrees for Sunday afternoon and then change little for Monday. After a mild Monday a fast moving and vigorous upper level shortwave trough is expected to move through. This frontal system is likely to be stronger than the one that moved through in the last 24 hours both in terms of cooling and precipitation. Highs on Tuesday are expected to be about 15 degrees cooler than will be observed on Monday.

Reno Weather:

Weak low pressure will bring temperatures down a few degrees from Friday, but highs will remain well above normal through this weekend. Another low pressure will bring increasing winds late Monday into Tuesday with temperatures cooling to near normal by midweek.

San Francisco Weather:

Onshore flow will weaken on Saturday and result in mostly clear skies over the weekend along with warming near the coast. A cooling trend is then forecast for Monday through Wednesday. Dry weather is expected to persist through the forecast period.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Mainly warm and dry weather will continue into next week for most of the region. Weak systems may bring a few showers to the mountains this weekend into early next week.

Hanford Weather:

A weak Pacific disturbance will move into the region today and Sunday, bringing slight cooling and breezy conditions along with a threat of showers and thunderstorms over the Sierra Crest. Temperatures will remain several degrees above normal through the weekend and into next week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A weak upper level trough will bring some cooling to the region this weekend, along with an increase in night through morning coastal low clouds and fog. Minor day to day changes in the weather are expected Monday through Wednesday, with some night through morning low clouds and fog in coastal areas. Temperatures will likely remain above normal, although there will be some cooling in the mountains and deserts. A warming trend is expected at the end of the week, especially west of the mountains as low level flow turns offshore.

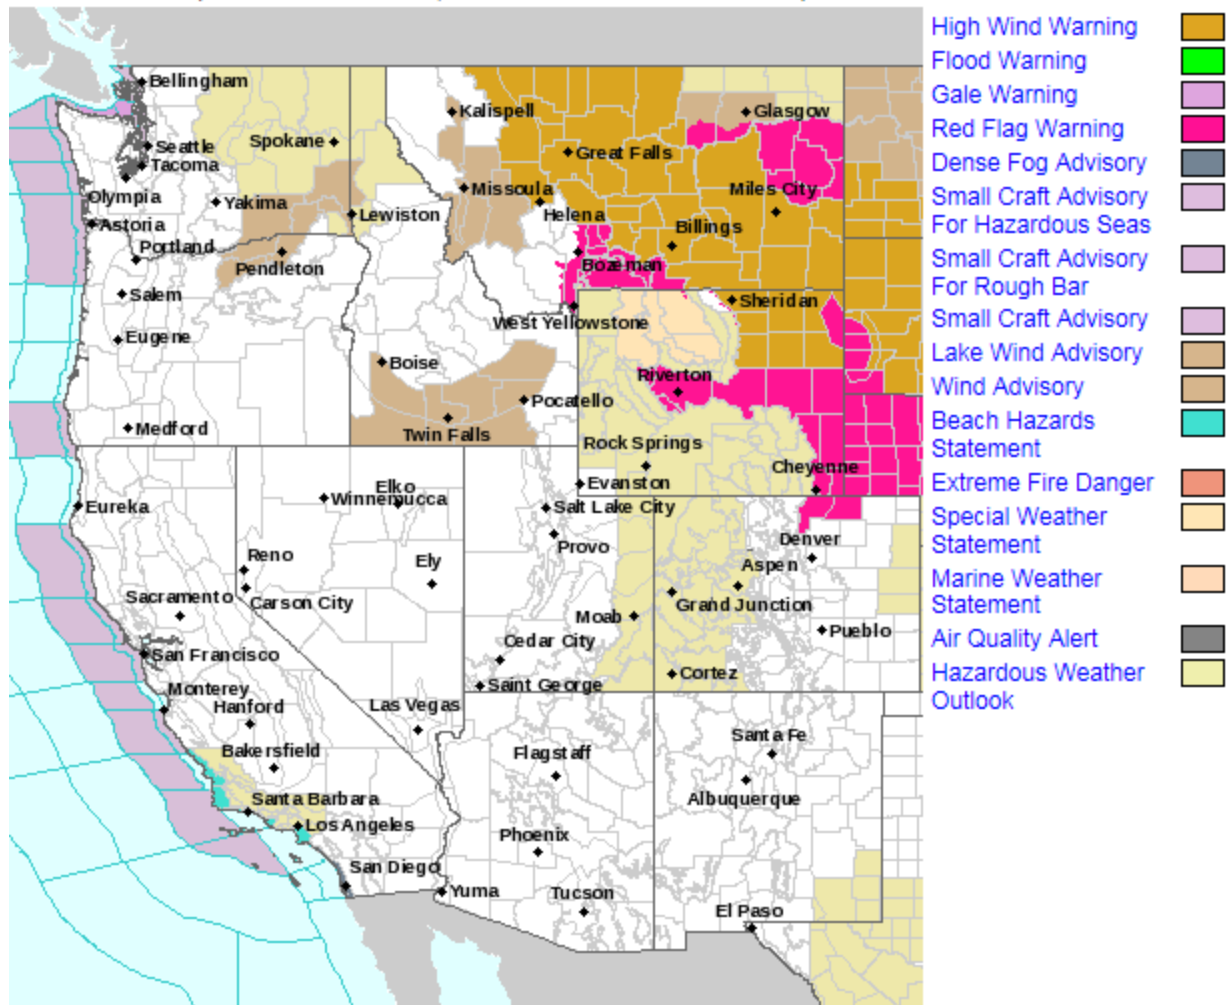

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft will weaken and drift east over the weekend, allowing onshore flow to increase, and a return of the marine layer for cooler days. A shallow moist layer has brought areas of dense fog to the coastal strip and up to about 10 miles inland overnight and this morning. Continued hot well inland on Saturday, then slightly cooler on Sunday. Fair, mild, and dry weather will continue through next week, with areas of night and morning low clouds and fog at times under westerly flow aloft, along with periods of gusty westerly winds possible for the inland mountain passes and desert floors.

Southeast California Weather:

High pressure aloft will result in sunny and warm days with near record high temperatures expected over the weekend. On Sunday a weak system will pass by the area resulting in some clouds and possibly a stray shower in the southern Sierra. Otherwise warm and dry conditions will continue through the middle of next week.

RECOVERY ACTIVITIES

Round Fire, Mono County

- Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.
- Two Recovery personnel have deployed to Mono County to assist with debris removal operations.
- An Applicant's Briefing will be held on 04/03/15 at 1300 hours, at the Lee Vining Community Center, to discuss the eligibility and guidelines of the CDAA program.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued an Executive Order on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought. Specifically, through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate a monthly state interagency conference call regarding drought community impacts.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a bi-weekly basis.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2015-LAW-9096, 3/23/15 1030 hours**, Trinity County Sheriff's Department (TCSD) is requesting resources for a cold case homicide. Their investigation revealed that the victim's remains maybe in a 80 acre parcel in Shasta County. TCSD is requesting two cadaver search dog teams to assist in searching the area. California Governor's Office of Emergency Services, Law Enforcement Branch is coordinating the search dog response. **Mission On-going.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
